1. The Kotva Building, Prague I, Namesti Republiky, is being remodeled and prepared for use as an StB office center. The block of residential houses adjacent to the Kotva Building, and extending to Benediktinska Street, is being confiscated for StB use.
2. The building was to have been ready for use by 15 August 1951. However, because of a shortage of building materials, it will not be completed on time.
3. A number of apartments and vacant shops in Prague are being leased by the SNB, ostensibly for use as SNB billets. Actually they will be used in surveillance and to house transmitters for local jamming of foreign broadcasts.
